Emotional Support

The emotional support services we provide range in technique and by answering some initial questions and through discussions with our team, we tailor the support we can provide to give you exactly what you need.

Everyone is different and we recognise that to support people in the best way we can, we need to work with people individually to develop a service that helps them achieve their individual goals. We are flexible in approach, and will work hard to provide support how you want it, where you want it and when you need it.

Sometimes you don't need emotional support, but you might just be looking for some practical help. Sometimes this could be help to fill out some forms, or help with accessing other services or support from other agencies.

Sometimes you might just need us to help you get your point across to other service providers. Maybe you need us to explain your situation to others to help them understand or to improve your access to services that would help you. Contact us and let us know what you need, and we can explain how we might be able to act on your behalf or support you to speak up.
